The Hunt Case.

The impression which has been in the maids of our people regarding the inmorenge of Hunt charged with rettling the Mainmoth Cave stage, continues to strengthen. Letters have been received from old man Hite, in Lagan, from parties who have conversed with Bill. Ryan in the Missouri State prison, and from the Ford boys who killed Jesse James, by which they all concur in the opinion of Hunt's innocence, It is) generally understood that from comnumberations received that desse dames and Bill Ryan did the robbery job, "BHI Ryan Is In the penitentlary, and, of course, does not onre to have any erimeawaiting him in the event of his relense, but he declares that Hunt had nothing to do with the atlair. The finding of lawyer Rountree's watch and his daughter's diamond ring, and the letter of old man Hite, in which he states he saw James and Byan the night following the robbery, and was shown the rings and other things, make it likely that Hunt is innocent of any complicity in the crime of which he is arensed. Persistent effort is being made to have the facts brought to the surface, and the Indications now are that Hunt will be given his freedom Hambiless Gov. Blackbarn would pardon him promptly if convinced of his terial facts within a very few days.
